Let's fix it lah!

COLOUR GUIDE

Choose the right colours, avoid mistakes

Designed for **HDB** - Condo - Landed Homes

How to choose the **Right Colours?**

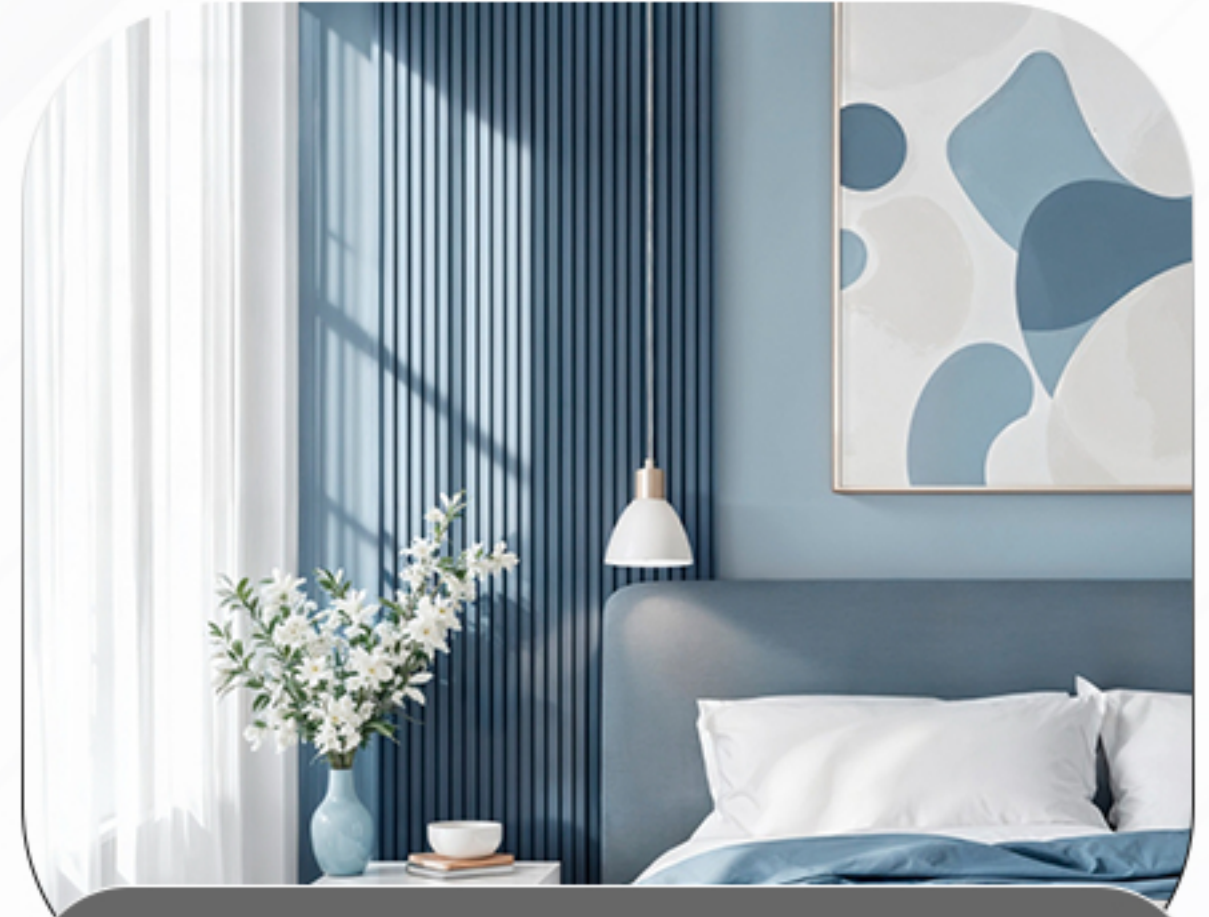

Light vs **Dark** Colours

LIGHTER COLOURS

- ✓ Brighten rooms
- ✓ Make spaces look bigger
- ✓ Water based sealer is sufficient
- ✓ Show fewer imperfections
- ✓ Require 2 coats(Usually enough)

**Ideal for living rooms,
bedrooms & rentals**

DARK COLOURS

- ❗ Chalk Easily(White powdering)
- ❗ Highlight wall imperfections
- ❗ Often need extra coats(Chargeable)
- ❗ Oil based sealer recommended

**Best for feature walls
not full rooms**

Fixlaa Tips

To get the best results with dark colours, use:

- 1) Oil based sealer
- 2) No chalk add-on
- 3) Additional coat if needed(3rd coat chargeable)

Note: This helps prevent chalking & gives a more even finish.

How to choose the **Right Shade?**

Room Size

- ✓ Lighter for small rooms.
- ✓ Darker for bigger rooms.

Furniture & Flooring

- ✓ Match walls with furniture,
- ✓ Light walls are more flexible.

Ceiling

- ✓ White ceilings brighten the room.
- ✓ Dark ceilings look lower and need extra coats.

Accent vs Full Room

- ✓ Accent walls for dark colours.
- ✓ Keep full rooms light.

Still unsure?

FAQ's

1) Do dark colours always chalk?

Dark colours have a higher tendency to chalk, especially on older, porous, or moisture-affected walls (e.g., areas around aircon pipes where walls stay damp).

For a better and longer-lasting finish, we recommend using a No-Chalk Solution (a specialised additive) to reduce chalking and improve durability.

2) Is the third coat included?

Our standard package includes **two coats**

A third coat may be required in situations such as:

- Switching from **dark to light** colours (previous shade may show through)
- Painting **dark over dark**, where colour bleeding can occur

If a third coat is needed to ensure a **smooth and even finish, it will be chargeable**

3) Can I change the paint colour after work has started?

Colour changes after painting has begun may incur additional costs.

Paint that has already been purchased — even if unopened — cannot be exchanged with Nippon.

Please confirm your colour choices before the painting work starts.
